Story of Certn

Andrew McLeod, Evan Dalton, and Owen Madrick came up with the idea for Certn in 2016. In 2017, they were joined by Daniel Faulkner, Will Nettke, Curtis Smith, and Chris Cook.

By 2018, Certn had launched its first product — a tenant background screening product for landlords and property managers. One year later in 2019, Certn started offering online criminal records checks for employers and others.

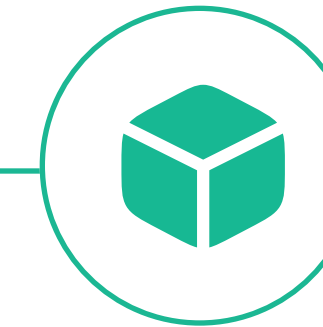

The Certn name is rooted in our company's **commitment to building trust**. At the centre of our hexagon logo, which represents Certn's secure technology, sits a heart to symbolize people and that clients are at the core. The mark is mathematically crafted to reflect the precision of the work we do.
