How it works:

- 1** Select the check you want to run from the global menu or your saved "Packages"
- 2** Click "Send" to invite someone to start screening via a secure link
- 3** The person receives an email or text — they consent, scan their ID, and take a selfie

Story of Certn

Andrew McLeod, Evan Dalton, and Owen Madrick came up with Certn in 2016. By 2018, Certn had launched a tenant background screening product for landlords and property managers.

One year later in 2019, Certn started offering online criminal records checks for employers and others.

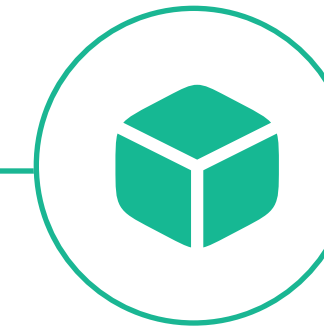

The Certn name is rooted in our **commitment to building trust**. At the centre of our hexagon logo, which represents Certn's secure technology, sits a heart to symbolize that people and clients are at the core. The mark is mathematically crafted to reflect the precision of the work we do.
